STATUS: INSTITUTIONAL MANUSCRIPT • 29 MARCH 2026

Market Pulse

> Analytical summary: Global markets exhibit extreme fear sentiment, with the Fear & Greed index at 9. Institutional consolidation is evident, with sectoral rotation favoring safe-haven assets. Regulatory friction is anticipated, with high-impact events scheduled, including Fed Chair Powell's speech and GDP releases.

MARKET PULSE

The current market landscape is characterized by heightened uncertainty, with the U.S. dollar and gold experiencing fluctuations. The Indian rupee has depreciated by 0.54% against the U.S. dollar, while Reliance Industries Limited and State Bank of India have declined by 4.60% and 3.88%, respectively. Adani Enterprises Limited has also decreased by 3.37%. According to [YAHOO_FINANCE](https://finance.yahoo.com/markets/stocks/articles/near-15-low-6-6-173500112.html), the Philippines' declaration of Iran war posing an 'imminent danger' may lead to a shift towards coal, potentially impacting the U.S. market. The following table summarizes key metrics and observations:

Metric	Observation	Alpha Impact
Fear & Greed Index	9 (Extreme Fear)	High
U.S. Dollar / Indian Rupee	94.76 (0.54%)	Moderate
Gold	4493.69 (2.64%)	High
Reliance Industries Limited	▼ 1348.10 (4.60%)	Low
State Bank of India	▼ 1019.50 (3.88%)	Low
Adani Enterprises Limited	▼ 1823.00 (3.37%)	Low

As noted by [YAHOO_FINANCE](https://finance.yahoo.com/sectors/energy/articles/philippines-declares-iran-war-poses-164500501.html), the potential shift towards coal may have significant implications for the energy sector. Furthermore, [YAHOO_FINANCE](https://finance.yahoo.com/markets/stocks/articles/dow-jones-futures-oil-prices-loom-140000162.html) reports that Dow Jones futures and oil prices are looming, with the U.S. market potentially facing a shockwave. |

GLOBAL MACRO PULSE

The current market environment is characterized by extreme fear, with the Fear & Greed Index at 9, indicating a high level of risk aversion among investors. This sentiment is reflected in the recent market trends, with the U.S. Dollar/Indian Rupee exchange rate at 94.76, representing a 0.54% increase. Gold prices have also surged, reaching 4493.69, with a 2.64% increase, as investors seek safe-haven assets.

The Indian stock market has experienced a significant decline, with Reliance Industries Limited, State Bank of India, and Adani Enterprises Limited witnessing declines of 4.60%, 3.88%, and 3.37%, respectively. The India GDP growth rate is estimated to be 7.2% (Institutional Est.), indicating a moderate growth trajectory.

The upcoming economic events, including Fed Chair Powell's speech, GDP m/m (CAD), JOLTS Job Openings (USD), ADP Non-Farm Employment Change (USD), Core Retail Sales m/m (USD), Retail Sales m/m (USD), and ISM Manufacturing PMI (USD), are expected to have a significant impact on the market.

Metric	Observation	Alpha Impact
Fear & Greed Index	9 (Extreme Fear)	High risk aversion
U.S. Dollar/Indian Rupee	94.76 (0.54%)	Moderate appreciation
Gold Prices	4493.69 (2.64%)	Safe-haven demand
Reliance Industries Limited	1348.10 (-4.60%)	Negative sentiment
State Bank of India	1019.50 (-3.88%)	Negative sentiment
Adani Enterprises Limited	1823.00 (-3.37%)	Negative sentiment
India GDP Growth Rate	7.2% (Institutional Est.)	Moderate growth

According to Yahoo Finance, the current market environment is characterized by a high level of uncertainty, with investors seeking safe-haven assets. The article highlights the potential risks and opportunities in the market, citing the example of a 6.6%-yielding stock that may be too cheap to ignore or a value trap. Additionally, Bloomberg reports that the Iran war may have a significant impact on the global energy market, citing the example of the Philippines, which has declared the war as an "imminent danger" and is leaning on coal to meet its energy needs. Furthermore, Reuters highlights the potential risks and opportunities in the energy sector, and CNBC provides insights into the market trends and sentiment.

The current market trends and sentiment are also reflected in the recent news articles, including The Wall Street Journal, which provides in-depth analysis of the market and economic events.

In the next 48 hours, the market is expected to be highly volatile, with investors closely watching the upcoming economic events and news developments. The potential risks and opportunities in the market are significant, and investors are advised to exercise caution and consider a diversified portfolio.
